SOPHOS INTERCEPT X

Experts Agree: Intercept X Delivers Superior Protection

Stop the widest range of attacks with industry's most comprehensive next-gen endpoint protection

Stop unknown threats with deep learning

Intercept X detects new and unknown malware using deep learning technology.

"One of the best performance scores we have ever seen in our tests"
Maik Morgenstern, CTO, AV-TEST

Protect against ransomware with CryptoGuard

CryptoGuard stops ransomware, and rolls back files to their safe states.

"Intercept X stopped all ransomware attacks we tested against it in seconds"
ESG Labs

Deny the attacker with signatureless exploit prevention

Intercept X blocks the exploit techniques hackers use to carry out their attacks.

"Intercept X stopped 100% of the exploit techniques that were missed by the traditional antivirus application"
ESG Labs

## SophosLabs: Leaders in Machine Learning

- Machine learning developed by Sophos data scientists with DARPA driven technology

- Proven on VirusTotal since August 2016

- Trained on hundreds of millions SophosLabs samples

- Detects and blocks malware in 20 milliseconds

SophosLabs detects 400,000 new malware samples **every** day.

75% of malware is unique to a single organization.

What Customers are Saying about Intercept X

"In the past 12 to 18 months, we have not experienced any serious incidents or outages. Intercept X is the best possible protection against ransomware and other internet threats."

Gus Garcia, security and information officer, Diocese of Brooklyn

"We deployed Intercept X to more than 2,000 endpoints. To date, Intercept has stopped more than 18 new ransomware attacks and since deploying we've had zero ransomware infections."

Emily Vandewater, lead security engineer, Flexible Business Systems, Inc.

"Not only does Intercept X do a great job of blocking malware and ransomware, it provides us with root cause analysis so that we can get a clear understanding of threats."

Raj Biyani, director of IT Effectiveness & Infrastructure, Analogic Corporation

SOPHOS

Deploy It Your Way

Extend your current antivirus

antivirus + SOPHOS INTERCEPT

Sophos Intercept X works alongside antivirus products from other vendors, elevating your protection and ensuring you stay ahead of the threats.

Enhance Sophos Endpoint

SOPHOS Central Endpoint + SOPHOS INTERCEPT

Together, Sophos Intercept X and Sophos Central Endpoint Advanced provide the best possible protection from previously known and unseen threats alike.

Synchronize your security

XG Firewall + SOPHOS INTERCEPT

Sophos Intercept X synchronizes with XG Firewall, our NSS Labs 'Recommended' appliance.

- Automatically isolate infected computers
- Reduce incident response time by 99.9%
- Identify all traffic on your network

Try Intercept X for free for 30 days.
