BACKUP AND RECOVERY

STORAGECRAFT®
Backup Fast, Recover Faster

Designed for the Windows® environment, this solution creates sector-level images of a disk drive, including not just data but also the operating system, applications, services, and configuration settings. Because your backup image contains everything on a given laptop, desktop or server, when you need to recover its entire hard drive, you can do so in minutes, rather than hours or days.

ESET

TECHNOLOGY ALLIANCE

ESET® Technology Alliance aims to better protect businesses with a range of complementary IT security solutions. We provide customers with a better option when staying protected in the ever-changing security environment by combining our proven and trusted technology with other best-of-breed products.

Backup and Disaster Recovery

StorageCraft ShadowProtect Virtual	Back up anything in a Windows virtual environment and recover it anywhere.
	Support for VMware, MS Hyper-V, Citrix XenServer®, Oracle VirtualBox, Red Hat® KVM/RHEV.
	Automatically back up SQL, Exchange and other critical applications.
StorageCraft ShadowProtect Desktop	Protects everything on your desktops and laptops: operating systems, applications like Microsoft® Office, configuration and personal settings, and data.
	Schedule automatic full and incremental backups.
	Enjoy granular recovery of individual files and folders in moments.
	Convert backup images to native .VHD or .VMDK virtual machine formats.
StorageCraft ShadowProtect for Small Business	Provides small and midsize businesses with enterprise-level backup and recovery, and managed system migration.
	Works with Windows Server Essentials, Foundation, and Windows Small Business Server.
	Automatically back up SQL, SharePoint and other critical application servers.
StorageCraft ShadowProtect Server	Provides fast and reliable backup, recovery, and managed system migration.
	Get servers online as quickly as possible.
	Automatically back up SQL, Exchange, and other critical applications.
StorageCraft Granular Recovery for Exchange	Recover mailboxes, email messages, and email attachments.
	Restore or migrate individual mailboxes quickly and easily.
	Search individual mailboxes or email messages for specific keywords.
	Quickly mount backups for ultra-rapid access to Exchange database (.edb) files.
	Use with any type of backup.

Remote monitoring

StorageCraft Shadow Control	Monitor ShadowProtect backups remotely.
	Get tiered monitoring of multiple locations within an organization.
	Receive automatic notification in the event of a status change.

Organize and manage backups

StorageCraft Image Manager	Use complete LAN- and WAN-based replication.
	Enjoy accelerated off-site replication to your private cloud with ShadowStream* and StorageCraft intelligentFTP.*
	Recover data in minutes with the patented StorageCraft HeadStart Restore®.*

* ShadowStream, intelligentFTP, and HeadStart Restore jobs do require a license fee. LAN- and WAN-based replication is included in the intelligentFTP job license.
